Automated Bakery System

About Us

With over 40 years of experience in the food manufacturing and processing industry, particularly in the bakery and confectionery sector, KBP Multiprocess Sdn Bhd has established itself as a leader in the field.

As the premier provider of processing and baking equipment and systems, KBP has skillfully integrated traditional baking methods with modern equipment to ensure the quality and consistency of processed and bakery products.

Our comprehensive range of equipment and machinery includes a complete production line consisting of a mixer, oven, cooling unit, encrusting unit, and packaging unit.

KBP has been appointed as the exclusive agent for 20 international food processing machinery manufacturers in the South-East Asian region, including W&P from Germany, Pavailer from France, Gorreri, Mondial Forni, Cavanna & SPS from Italy, and Masdac, Oshikiri & Fujisawa from Japan. In addition, we maintain a close partnership with the Rheon Group, the most distinguished name in the baking and confectionery industry in Japan.

In addition to providing cutting-edge technology and machinery, KBP offers services to assist clients in enhancing and innovating their food products. Our highly skilled Research and Development team boasts over 50 years of combined experience, and is equipped to provide expert consultation and guidance to clients seeking to optimize their manufacturing processes.

ABOUT US

OUR BELIEVE

Objective

Our aim is to deliver high-quality professional services to customers worldwide by utilizing KBP's professional and extensive experience in bakery industry including:

- Design the automated flow of production.
- Reduce production time and labour.
- Prioritize the quality and hygiene of the products.
- Maximise the product's shelf life.

Mission

We are committed to delivering exceptional value through our superior products and services, enabling our customers to achieve a competitive edge in their respective markets.

We prioritize continuous improvement through ongoing education, training, and the implementation of cutting-edge technologies and best business practices.

Core Values

- Our business is founded on the principles of honesty, sincerity, and efficiency, which guide all our business decisions and interactions.
- Our top priority is to ensure customer satisfaction by providing services of superior quality and value.
- We maintain a culture of trust, respect, and fairness towards all our employees and expect them to reciprocate the same.
- We aspire to conduct all our dealings with customers, employees, suppliers, and other stakeholders in a manner that reflects the values of mutual respect and fairness that we hold dear.

OUR MILESTONE

OUR MILESTONE

1981

Leveraging his expertise in bakery and confectionery machinery, Foo founded Kinji Baking & Packaging in Bukit Bintang, Kuala Lumpur.

1975

With a wealth of knowledge and expertise acquired from a young age, Foo embarked on his entrepreneurial journey by establishing his first bakery shop in Johor Bahru, Malaysia.

1989

The initial foray into the Thai market was followed by a similar effort in Indonesia.

1990

The initial showroom was established in Pandan Indah, Kuala Lumpur, and subsequently, the first factory for stamping and packaging machines was established in the Bandar Sri Damansara Industry Park.

1991

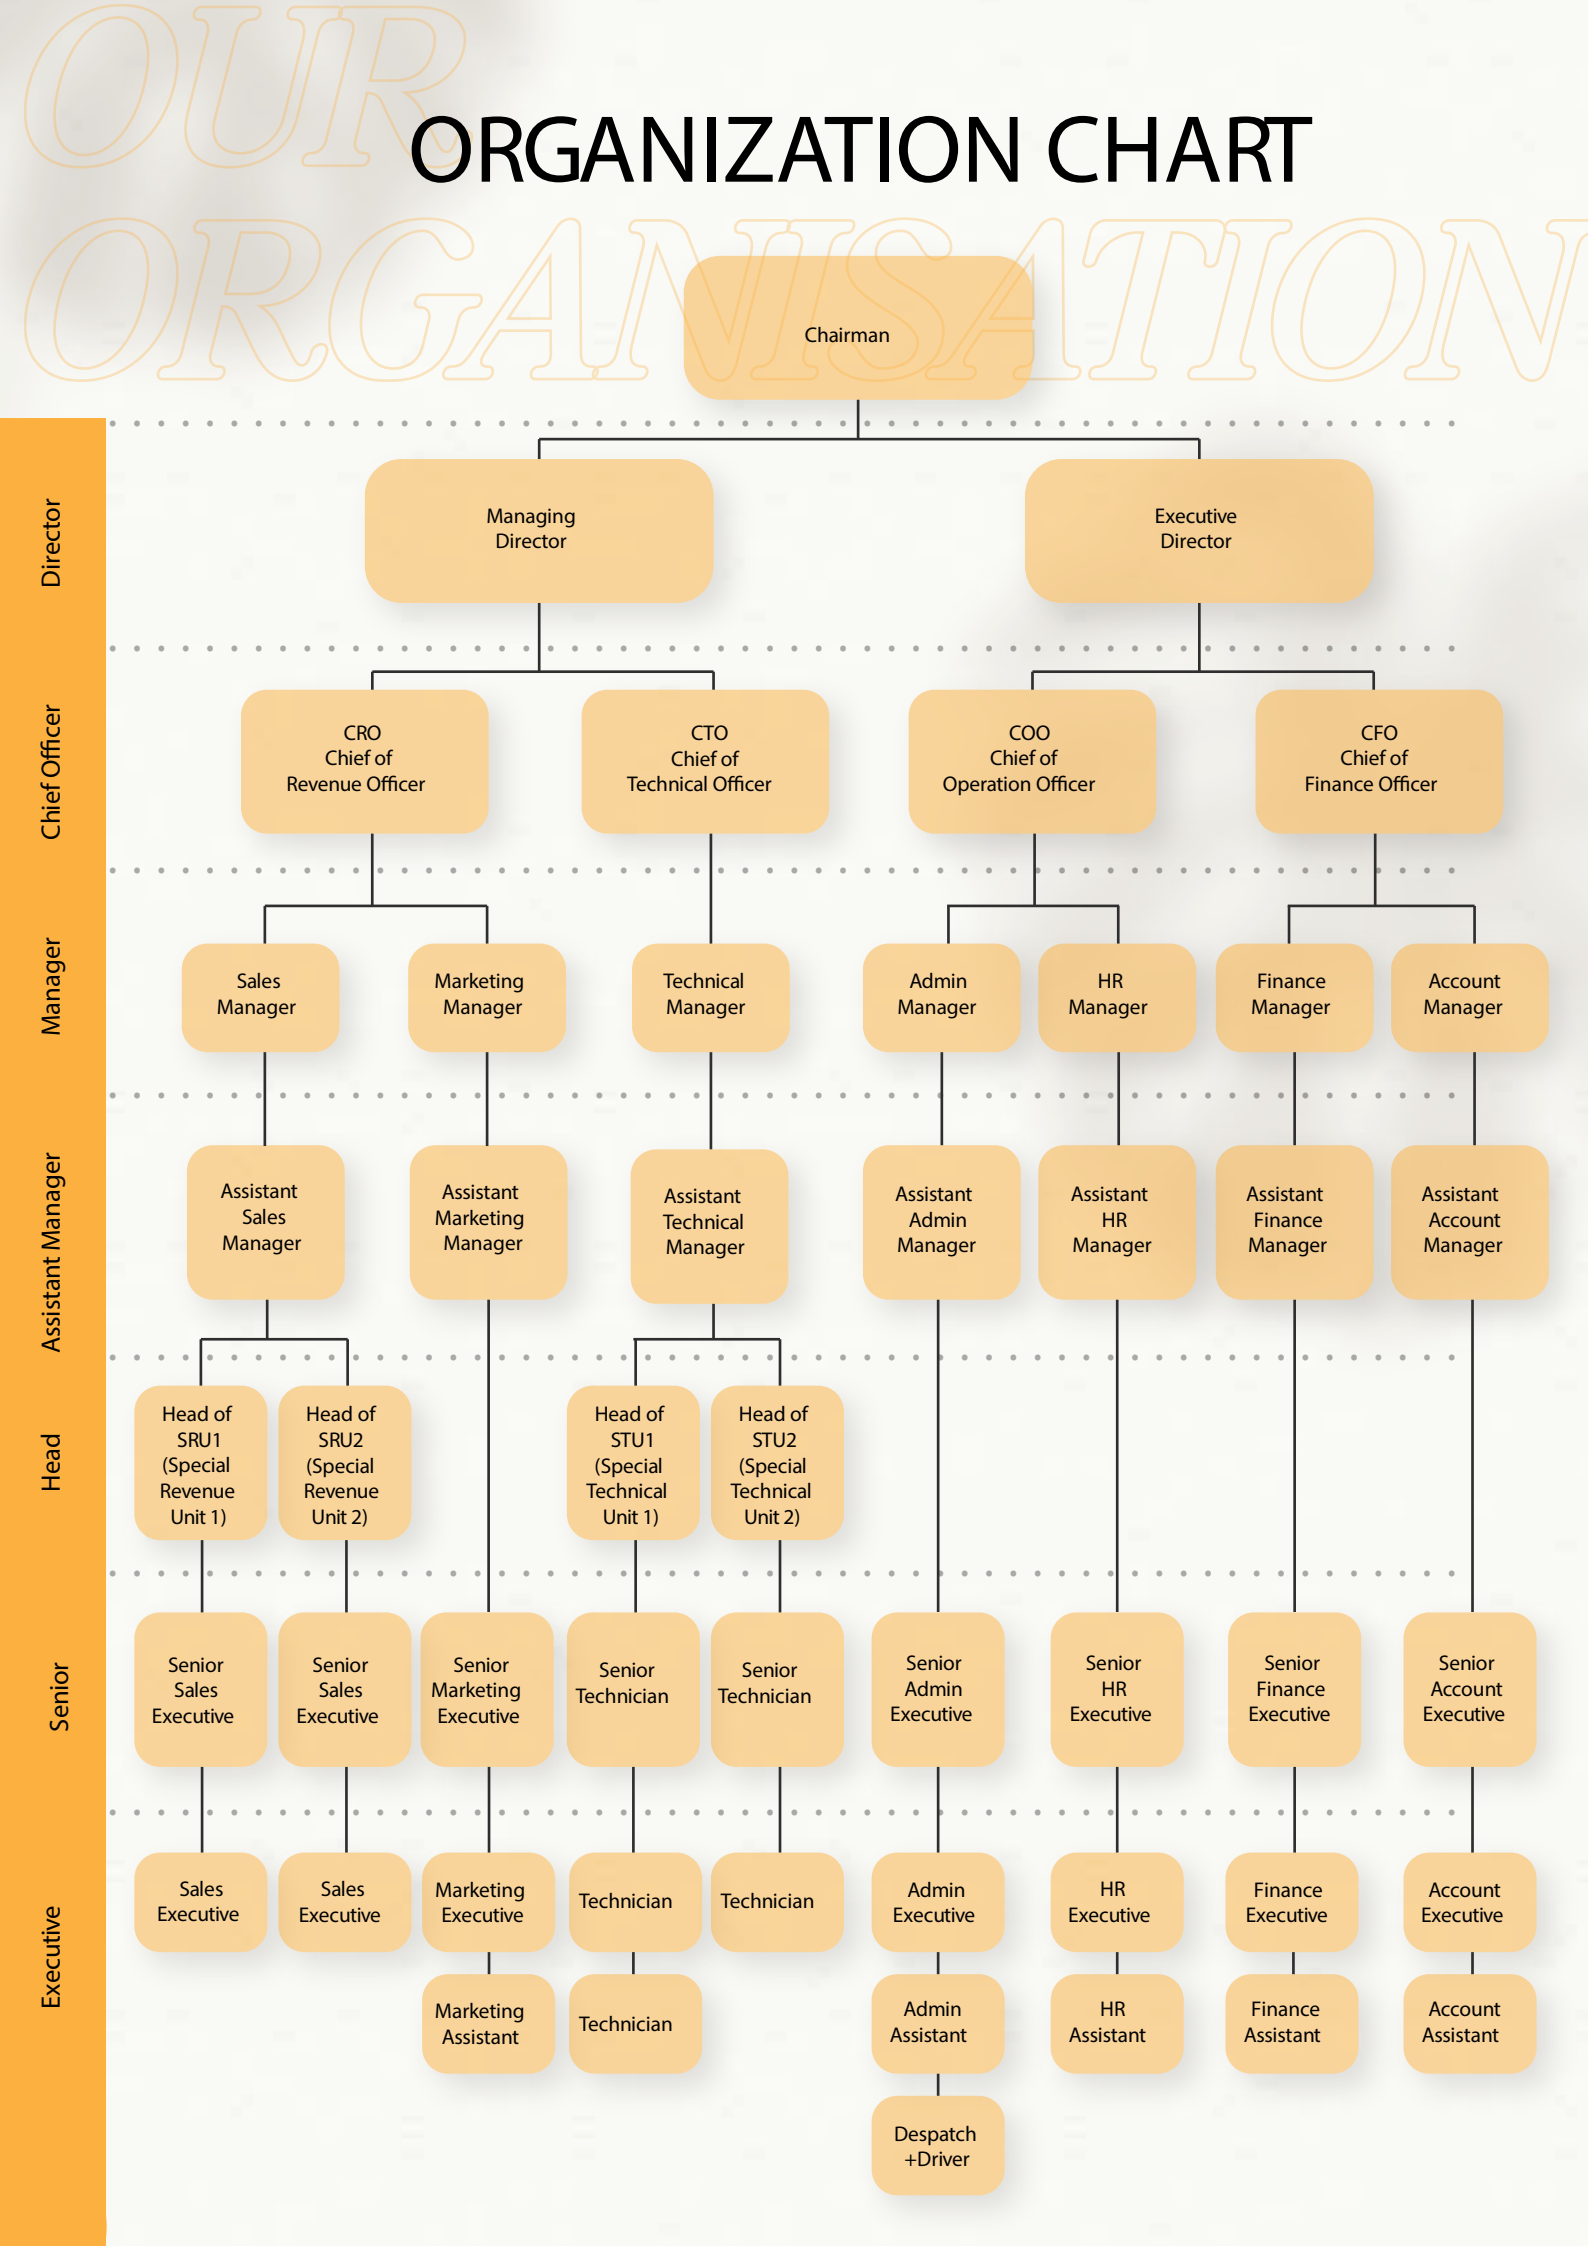

The company's next overseas venture was into a new market - Vietnam.

1997

The company underwent expansion by constructing a new factory spanning 2 acres in size at Bandar Baru Bangi, and subsequently rebranded as KBP Multiprocess Machinery Sdn Bhd.

BUSINESS STRATEGY & PARTNERS

As a prominent supplier of baking systems and related equipment, KBP serves major players in the food processing industries worldwide. We collaborate with business partners from various countries and participate in projects and exhibitions around the globe, including Malaysia, Ho Chi Minh City, Vietnam, Jakarta, Indonesia, and others. Our ambition is to expand our bakery equipment markets in countries worldwide while also acquiring valuable business and cultural skills from every region.

Additionally, we recognize that the processed food industry is influenced by the rising demand for convenience due to busy lifestyles of consumers. With increasing per-capita income, the demand for ready-to-eat and on-the-go food items has grown, leading to higher demand for bakery products. As a result, the outlook for growth in the bakery processing equipment market remains optimistic, given the high growth rate of the bakery industry.

KBP is comprised of a team of dedicated professionals who have committed their careers to serving our customers and advancing the interests of the company. We place a strong emphasis on achieving results and conducting ourselves with integrity and ethical behavior at all times.
